HARD WORK NO SWEAT

TICK ALL THE BOXES, ALL THE TIME

The GWM Steed 5 Single Cab - It could be your right hand on the farm, on the construction site or weekend leisure tool. Based on a rugged ladder-frame chassis and featuring a double-insulated load bin with several tie-down points, the Steed 5 is ready to handle the big jobs, so don't let its good looks deceive you. All Steed 5 Single Cab models boast comprehensive colour coding, fog lamps, endowing these workhorses with looks that are anything but humdrum.

STEED 5 SINGLE CAB

HARD WORK NO SWEAT

COMFORT COMES STANDARD

The GWM Steed 5 Single Cab takes the sweat out of a tough day by offering a comprehensive standard specification, even at entry level. It starts with the spaciousness of the cabin, which offers excellent head, shoulder and legroom. All models feature comfortable individual bucket seats, power steering, airconditioning and an audio system (radio with USB/SD support on the 2,2 MPI and radio/CD with USB support on all other models, excluding 2,0 WGT).

POWER AND ECONOMY

Whether you opt for the 2,2-litre, or the 2,0-litre WGT or VGT turbodiesel motors, exceptional power, economy and refinement are on offer. The proven 2,2-litre engine delivers 73kW and 180Nm of torque to the rear wheels. It is mated with a five-speed manual transmission. For diesel fans there is GWM's 2,0-litre VGT engine that has received widespread acclaim. This direct-injection, variable geometry turbo engine delivers 105kW and a meaty 305Nm of torque. GWM's WGT engine brings the turbodiesel experience within financial reach of a bigger audience. It delivers 78 kW and 225 Nm of torque.

SAFETY AND SECURITY

GWM has equipped the Steed 5 Single Cab SV with a comprehensive safety package that includes dual front airbags and ABS with EBD. Furthermore, all Steed 5 Single Cabs feature fog lamps during poor weather conditions and adjustable safety belts. To make sure your pride and joy doesn't find a new owner without your consent, central locking and an immobiliser (excluding 2,2 base) are standard fitment.
